

Development Intern

Cure Alzheimer's Fund is seeking a 2026 summer intern to join our development team. This is a great opportunity for students looking to gain hands-on experience in fundraising, donor relations, communication, and nonprofit operations. **[Send resume & cover letter to jobs@curealz.org](mailto:jobs@curealz.org)**

What You'll Do:

- Support our community fundraising program, CureAlz Heroes, by contributing resources and planning activities
- Conduct research on peer organizations, fundraising trends, and engagement strategies relevant to community fundraising
- Gain an understanding of donor cultivation by assisting in stewardship and donor outreach
- Participate in team brainstorming sessions and contribute ideas
- Engage in professional development activities
- Complete a capstone project to propose creative ways to support fundraising/community-building efforts at Cure Alzheimer's Fund.

What We're Looking For:

- Students currently enrolled in a college or university, preferably in a field related to nonprofit management, communications, marketing, or business.
- Strong written and verbal communication skills.
- Detail-oriented and able to manage multiple tasks simultaneously.
- A proactive attitude with a willingness to learn and contribute to team projects.
- Interest in nonprofit development, marketing, and/or fundraising.

Internship Details:

- Location: Hybrid (Wellesley, MA) or Remote
- Compensation: \$15/hour
- Duration: 8 weeks June 15-Aug6 (some flexibility with dates)
- Hours: 18 hours per week; Tuesday-Thursday 9 – 3pm ET

About Cure Alzheimer's Fund

Cure Alzheimer's Fund (CureAlz) is a non-profit organization dedicated to funding research with the highest probability of preventing, slowing or reversing Alzheimer's disease. Since inception in 2004, CureAlz has distributed over \$270 million to Alzheimer's research around the world. Our Board of Directors, Trustees, and a core group of other donors direct their donations to fund our overhead expenses, so 100% of general donations go directly to support our research programs.

CureAlz offers a supportive and collaborative environment where you can gain practical experience in the nonprofit sector. You'll have the chance to contribute to meaningful work that supports Alzheimer's research while building technical and soft skills important for professional development.

For questions about the role, contact Lainie Holcomb: holcomb@curealz.org
